W8 - BEFORE PRACTICE

START CODE UNDERSTANDING

Read carefully the code and draw the diagram representing the relationship between

- Screens
- widgets
- services

<u>The diagram shall include the bellow widgets:</u>

- HomeScreen
- RidesSelectionScreen
  - RideSelectionHeader
  - RidePreferenceModal

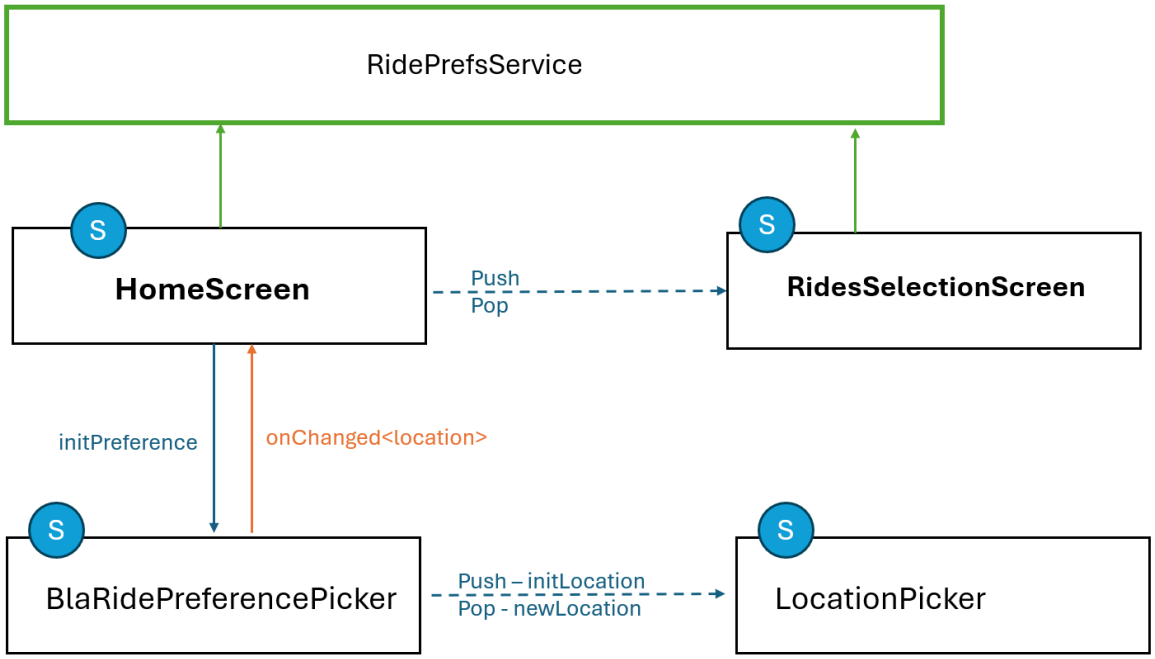
- BlaRidePreferencePicker
- BlaLocationPicker
- BlaSeatPicker

<u>The diagram shall include the bellow services</u>

- LocationsService
- RidePrefsService
- RidesService

<u>You need to specify for each widget:</u>

- Stateful or stateless
- Received props/call backs from parents
- Services used
- Push/Pop navigation between widgets



Example of diagram with widget and services interactions

⚠️ You can use the **provided template** as a starting point.
